JOB DESCRIPTION

Drive supply chain excellence and keep critical programs moving.
As a **Project Manager, Inbound Logistics**, you will lead high-impact supply chain projects focused on inbound transportation, warehousing, and inventory management. Working with internal stakeholders, suppliers, and third-party logistics providers, you will ensure the safe, efficient, and timely delivery of materials that support operational success.

RESPONSIBILITIES

- Lead supply chain projects, ensuring delivery on scope, schedule, and budget.
- Develop and implement Vendor Managed Inventory (VMI) programs, including policies, processes, KPIs, and SLAs.
- Manage relationships and performance of key logistics providers and subcontractors.
- Develop business cases and present recommendations to senior leaders and customers.
- Lead risk and change management activities for inbound logistics initiatives.
- Monitor supply chain performance and drive continuous improvement.
- Support material availability and operational goals, including zero late deliveries and zero defects.

QUALIFICATIONS

- Bachelor's degree in Business, Engineering, Finance, Supply Chain, or a related field.
- 5-7 years of experience in Project Management, Supply Chain, Logistics, or Inventory Management.
- PMP designation required; RMP designation considered an asset.
- Strong knowledge of supply chain and financial management principles.
- Experience managing complex supplier or subcontractor relationships.
- Strong analytical, communication, and stakeholder management skills.
- Experience in industrial, manufacturing, shipbuilding, or defence environments is an asset.

Due to the nature of work Irving Shipbuilding does, all successful applicants must meet requirements for the Canadian Controlled Goods Program (CGP), Canadian Government Security clearance, and U.S. International Traffic in Arms Regulations (ITAR).
Please note this position requires a full-time, in-office presence.
