Convergint is looking for a Project Manager – Security Solutions to join our amazing culture on our Capital Projects team in Halifax, NS. The Project Manager plans, schedules, organizes, and directs application engineering, material and equipment procurement, field installation and start-up of assigned projects.

Who You Are

You have a passion for providing world-class service to customers, colleagues and communities. You are a person of integrity with a commitment to growth, accountability and delivering results. You want to join an organization with a positive culture that embraces inclusion and allows everyone to be the best version of themselves at work and home. You want to grow with us and deliver results as an exceptional Project Manager.

Who We Are

With 20-years of proven growth and exceptional performance, our mission is to be our customer's best service provider. We realize the importance of diversity in achieving that goal. Our company was built upon a solid foundation of 10 Values and Beliefs which drive our unmatched culture, making us the #1 global, serviced-based systems integrator in the industry. We take great pride in protecting the lives and assets of our customers and their communities with the solutions we provide.

What you'll do with "Our Training and Your Experience"

- Manages, oversees and coordinates all aspects for medium to large, typically more complex projects from award through completion of project. May handle multiple projects simultaneously.
- Translates a wide variety of customer needs / requirements requiring originality and ingenuity into detailed proposals and project plans to meet Customer requirements; reviews and approves estimated costs prior to bid; provision of technical assistance to sales force as and when required; project design engineering; supervision of installation labor and sub-contractors. preparation of

project schedules, subcontracts, change proposals, project invoices; manages collections on projects.

- Proactively communicates project requirements to project team and wider organization as and when required and maintains accurate and up to date records of job status, job changes, material flow and other control records necessary for processing of internal and external reports.
- Identifies potential project risks and develops/implements strategies to minimize impact and control deviations from estimated costs and project deadlines.
- Establish project milestones and analyze costs; utilizes financial systems to review actual vs. estimated job cost and to provide timely and accurate project cost reports.
- Manage the execution and review of all scope of work, terms and conditions in customer contracts including cost control, delivery fulfillment, and quality of service and other customer requirements as they arise.
- Have existing Canadian Government Security Clearances or ability and willingness to obtain.
- Perform limited range of managerial responsibilities including but not limited to: planning, assigning and directing work; performance management; project budget. Oversees subcontractor selection process and work.
- Acts as “our customer’s best service provider” at all times thereby ensuring Convergent is the customer’s first choice for service.

What You’ll Need

- Strong coaching, mentoring, and staff development skills; solid leadership orientation – Actively seeks ways in which to act as a role model, guide, develop and mentor others within the organization.
- Shows initiative – engages in proactive behavior and looks for opportunities.
- Strong analytical skills necessary to resolve problems and look for solutions.
- Strong financial analytical skills including cost control.
- Must be legally eligible to work for any employer in Canada (for example, by way of Canadian citizenship, permanent residency or work permit)

Requirements:

- Bachelor’s Degree in Engineering or related field or equivalent experience.

- Three to five years of previous project management experience in electronic security systems required.
- Government of Canada Security Clearance (Secret) preferred, or ability to be cleared.
- Project Management Institute (PMI) certification preferred; industry-specific certifications and/or licenses a plus.
